

CBSC Launches New Quick Poll

August 28, 2014

Community BancService Corporation, Inc. (CBSC), the business-services affiliate of Community Bankers Association of Illinois (CBAI), has launched a new [Quick Poll](#) feature for CBAI member banks. The poll is designed to measure community bankers' opinions on a number of banking-related topics.

"The CBAI Member Quick Poll is designed to be an informal, unscientific survey on community-banking issues," said Michael Kelley, CBSC president. He added, "Bankers routinely contact the association wanting to know what we've heard from other bankers about a given topic. For example, our first poll is about [Concealed Carry](#) practices."

The visiting banker can select an answer and then see instant results from other banker visitors, expressed as a percentage. Individual poll answers are kept confidential. An archive vault will be established for storage and easy retrieval of past Quick Polls and results.

CBSC intends to post new poll questions from time to time. Bankers are also encouraged to submit poll questions to Mike Duke, CBSC VP of Services, at miked@cba.com.
