

A Complete Information, Communication and Collaboration Suite for Your Board. Committees and Staff

Effective communication is the difference between outstanding companies and ordinary ones. Whether for your board of directors meeting or employee communication, you need communication solutions that make working together faster and easier. CSI Secure Connect simplifies both the way you share information and the way individuals interact with it.

“With a growing importance of keeping our board informed on the various aspects of the bank and regulations, we have found CSI Secure Connect to be the best tool available to us. We also use Secure Connect for our board and committee meetings. It is very easy for our board members to not only gain quick access to materials for the meeting, but it also allows them to take notes on each document. They have found CSI Secure Connect to be a very powerful tool in becoming a more effective director.” Rick R. Klinedinst, President & CEO MidAmerica National Bank, Canton, IL

5 Reasons to Choose CBSC’s Preferred Provider for Portal Software

1. Includes Board Portal, Lending Committee Portal and Staff Portal capabilities in a single service.
2. Provides secure remote access on PC, tablets and mobile phones.
3. Requires no additional hardware, software or additional staff to maintain and little end-user training to use.
4. Backed by a robust security infrastructure.
5. Affordable for Community Banks

Find out how CSI’s Intranet portal software can simplify the way your bank’s data is accessed, shared and utilized. Complete the [online contact form](#), and a member of the CSI team will contact you.
