

Dear CBAI Member:

It is my pleasure to introduce Jason Pero, the newest member of the Welch Systems Sales Team. Jason is serving Illinois community banks from his office in Algonquin, Illinois. Jason earned a bachelors degree from the University of Iowa and played on their golf team.

Our productive relationship with Welch Systems is entering its 40th year, and Welch is noted for attending and exhibiting at every CBAI convention since 1976! Many CBAI members across the state rely on Welch Systems to provide branch transformation technology solutions/services, such as cash recyclers, video assisted ITM, and self-service coin counters.

In the near future, Jason will call to arrange a meeting with you at your bank, and I encourage you to seriously consider what Welch Systems has to offer and take the time to visit with him. [See Jason's Executive Profile Here.](#)

As always, just call me if you have any questions. Thank you!

Sincerely,

A handwritten signature in black ink that reads "Michael W. Kelley". The signature is written in a cursive style.

Michael W. Kelley
