Regulation Z University - Closed End

Overview

It is no secret that regulations continue to expand. This is especially true for Regulation Z. The Regulation Z commentary alone consists of over 372,000 words. As the complexity has increased, the ability for banks to comply has become more and more compromised. In response, we are offering this course to discuss all aspects of Regulation Z – Closed End.

The manuals (which will be extensive) will be broken out by the loan type, and information that pertains to different loan types will be repeated in each manual as needed. This will make it easier for the student to use the manuals for reference after the seminar. The course will consist of lecture and discussion, along with time devoted to questions and answers.

We will teach each major subject in the order that it appears in the agenda.

The annual Illinois Lending School that will be held in March 2019 will not include Regulation Z so that school can focus on the many other topics that impact consumer lending.

Who Should Attend

This course will be an in depth analysis and will cover all aspects of the rule. While all will benefit, at least some knowledge or experience with the regulation will be helpful. Attendees who are compliance officers, auditors, senior management, consumer lenders of all areas, consumer loan processors, and any others involved in consumer lending will benefit from this program.
