Webinar – On-Demand Web Link

Cyber Series: Beginning IT Officer Training

Tuesday, June 12, 2018

2 - 3:30 p.m.

Cybersecurity is one of the top risks on everyone's radar. Regulators continue to focus on cybersecurity as hackers demonstrate increasing success. Therefore, it is crucial that new IT officers and their supervisors seek current, relevant training. Updated regulatory guidance now requires clear definition of cybersecurity responsibility (e.g., information security officer), which is independent of IT operations. This session compares and contrasts the roles of IT operations and information security officers. The core of the session describes key attributes and capabilities that an IT Officer needs to develop. A sample career growth model designed to develop professionals for IT operations and cybersecurity roles is examined.

HIGHLIGHTS

- Differences between IT operations and cybersecurity, including key attributes and responsibilities
- Highlights of regulatory guidance related to IT operations and cybersecurity roles and responsibilities
- Need for cybersecurity governance independent of cybersecurity and IT operations
- Pros and cons of various training programs
- How to fulfill the roles in smaller institutions with limited staffing

TAKE-AWAY TOOLKIT

- Sample position descriptions
- Training program resources/starting points (i.e., SANS, ISACA, CEH, etc.)
- Employee training log
- Quiz you can administer to measure staff learning and a separate answer key

Attendance verification for CE credits provided upon request.

WHO SHOULD ATTEND?

This informative session is intended for individuals new to or interested in pursuing IT operations/cybersecurity officer positions. Management/leadership, directors, and committee members responsible for organizational governance and risk management also find the session informative, expanding their understanding of cybersecurity roles and responsibilities.

ABOUT THE PRESENTER

Randall J. Romes, CISSP, CRISC, MCP, has been a consultant at CliftonLarsonAllen since 1999 and brings a strong background in computer technology, physics, and education. As a principal in the Information Security Services Group, Romes leads a team of technology and industry specialists and is responsible for the continuing development of the open-source, Unix, and Windows applications used in security audits. Romes has been involved in developing numerous leading-edge hacking/testing methods and security service offerings. A featured speaker at national information and security management conferences, Romes holds multiple certifications, a Master's in Educational Technology from the University of Saint Thomas, and a Bachelor's in Education from the University of Wisconsin — Madison. In addition, he is an instructor at the Graduate School of Banking at the University of Colorado in Boulder.

THREE REGISTRATION OPTIONS

1. LIVE WEBINAR

The live webinar option allows you to have one telephone connection for the audio portion and one Internet connection (from a single computer terminal) to view online visuals as the presentation is delivered. You may have as many people as you like listen from your office speaker phone. Registrants receive a toll-free number and pass code that allow entrance to the seminar. The session is approximately 90 minutes, including question and answer sessions. Seminar materials, including instructions, PIN number, and handouts are emailed to you prior to the broadcast. You need the most-current version of Adobe Reader available free at www.adobe.com.

2. ON-DEMAND WEB LINK**

Can't attend the live webinar? The ON-DEMAND WEB LINK** is a recording of the live event including audio, visuals, and handouts. We even provide the presenter's email address so you may ask follow-up questions. Within five business days following the webinar, you are provided with a web link that can be viewed anytime for the next six months. This link expires six months after the live program date.

3. BOTH LIVE WEBINAR AND ON-DEMAND WEB LINK**

Includes options 1 and 2 above.

NEW! Listen to the on-demand web link on your iPad, iPhone, or Android. Instructions are emailed to you with the on-demand link.
