Disaster Preparedness, Recovery & Business Continuity

Thursday, December 7, 2017

2 - 3:30 p.m.

Is your bank ready for the unexpected? What if sudden disaster strikes? Will your business continuity plan hold up under a real-life disaster? Recent events have taught us that business continuity plans are not just for examiners. They must be well thought out, thoroughly tested, and ready at a moment's notice. This session guides you in creating an effective plan; assessing, managing, and monitoring risks; and working with third-party technology service providers (TSPs) to prepare your institution for a disaster. It also includes "lessons learned" from a banker whose business continuity plan withstood a real-life disaster.

- Business impact analysis (BIA)

ABOUT THE PRESENTER

Molly Stull, Brode Consulting Services, Inc., began her career as a teller while working on her undergraduate degree and has continued working in the financial industry ever since. She has experienced the growth of a hometown bank, acquisitions of branches, mergers, charter changes, name changes, etc. Stull has activated business resumption plans, performed secondary market quality control reviews, processed wires, filed SARs, and coordinated reviews with external auditors and examiners.
