

“Fitech Payments: The Community Bank of Merchant Processors”

“I was treated like royalty on my tour of Fitech Payments Texas facilities, I saw the most impressive, 5-time award winning customer care center. All customer contact individuals are cross-trained, to allow them to resolve most issues on the spot. In the case of damaged or broken equipment, new equipment is overnighted to the customer.

Our conversion process was completed flawlessly. They sent out a team of experienced individuals who accompanied our staff, on visits to each customer. They treated us the way community banks treat their customers.”

Dave Stanton, President & CEO, PeopleFirst Bank.
